RE: Premier League Primary Stars SEND Group

Our Key Stage 2 Resource Group (7 children all with EHC Plans) started to work with Stockport County in the autumn term. They did 6 weeks of working on skills to develop their balance, core strength, throwing and catching; as well as following instructions and working as part of a team. The levels of ability in the group are very broad. However, we have seen improvements for each of the children.

Child A: Improved participation, and following instructions.

Child B: Improved balance and control, and participation as part of a team, seeing the views of other team members.

Child C: Developed more of an interest in PE, as had been reluctant to join in previously.

Child D: Helped to improve her team involvement, as well as increasing levels of exercise.

Child E: His balance and core strength have improved, as well as his confidence in trying new things.

Child F: Improved engagement in activities, and focus developed throughout the sessions.

Child G: Improved core strength and throwing and catching skills.

This course has been very beneficial for all our Resource pupils. The skills and strategies used by the SCFC coaches have made a big difference to their progress over the past 6 weeks.

Mrs Lindsay Warner

Deputy Headteacher/Inclusion Manger.
